Amazing Illusion

U.S. Patent No. 5615765

All of these products feature our incredible patented casing that has no hinges. It's an awe-inspiring design just begging to be toyed with! The case flips around with its sleek contrasting panels somehow changing place! Imprinted logos appear, disappear, and whoa… reappear someplace else! Open the stylish case at a 360° angle and the two halves magically roll into each other so that pen and calculator switch sides!

What? How? WOW!

Custom Colors available
